

## **COVID-19 UPDATE – 12/05/2020**

### **CLOSURE UPDATE**

In line with the latest Government advice and to protect local communities, our lovely guests and our wonderful team, Fynn Valley Holidays will be extending the temporary closure of our site until 2<sup>nd</sup> July 2020.

As you will appreciate, this action is unprecedented, but in line with the rest of the industry and we feel is the most responsible action we can take at this time. This date will of course be monitored going forward and will be in line with continued Government advice.

I will be contacting everyone with a booking in the coming weeks to ensure you're aware of the situation and to advise you to contact your travel insurer. If you are not covered by your insurance, we would be very happy to change the dates of the holiday to later in the year or next. Alternatively, we would be happy to offer a voucher for the money already paid to be used against any holiday completed within the next year.

We are a small business, and as such, we really appreciate your patience and support at this time.

In the meantime, we are still welcoming online bookings for stays later this year and next. So here's to welcoming you all in the future. In the meantime, stay safe, be kind and look after one another.

Very best wishes,

*Katie*
